Certified Roadside Farm Market Member Information

In July 1996 the Kentucky Farm Bureau Certified Roadside Farm Market program began to help farmers market their fruits and vegetables directly from roadside markets to consumers across the Commonwealth. Since then, the program has expanded to include farm enterprises like greenhouses, landscape nurseries, Christmas tree farms, vineyards/wineries, livestock operations, fiber markets, and meat/cheese farm markets.

Markets certified through this program are identified by the cornucopia logo and are listed in the Certified Roadside Farm Market Directory. The program provides collective advertising, promotional items, educational tour opportunities, and other marketing benefits with the intent to increase the net farm income of our member markets.
